ASKOV NURSERY

1916 ASKOV, MINN.

NORTHERN PART OF PINE CO., ON GREAT NORTHERN RY.

I have on hand, and grown here in Askov, a few thousand plants, about sufficient I think to supply a local demand, and that is what I have intended to have. It happens that I am short one or another variety wanted. I buy such from nurseries located as far north in Minnesota or Wisconsin as possible. I do not import Southern or Eastern grown plants. Order early and direct. If plants are to be shipped cost of boxing and packing must be added.

In fruit trees and plants I offer only varieties that have been tried as hardy here and are recommended by the Minnesota State Horticultural Society. Special offer of one year's membership in the Minnesota State Horticultural Society with each cash sale of plants for not less than \$10. See enclosed red folder what you are entitled to as a member for one year.

APPLES AND CRABS

Select a northerly slope with good drainage.

Apples and crabs, 4-5 feet.....30c

" " " 5-6 "40c

I have quite a few twice transplanted which I offer at 50 to 75c each.

POTATOES FOR SEED

I grow on contract from select stock, guarantee true to name and offer surplus:

Carmen No. 3, considered the best late potato, fine oval, good size, excellent cooker.

McKinley, a new variety, originated in Minnesota some years ago. Shape and quality similar to Carmen No. 3. An immense yielder.

Prices subject to market fluctuations.

SEED

For a number of years I have imported from Denmark a few varieties Cabbage Danish ball head, Cauliflower, Tomato and Rutabagas and can spare some for neighbors and friends as long as it lasts.

LUDVIG MOSBÆK.
